Godfrey briefed on the small mercenary invasion in the southern Congo, which might spark antiwhite incidents in the area. Fighting continues at Bukavu.

Godfrey noted that the Soviet instrumentation ships are leaving their range positions and heading north.

Godfrey said that, with the fifth day of enemy attacks on Loc Ninh, the Communist tactics are still unclear.

DD/S reviewed the Agency's recruiting activities which, in line with the Director's policy, are being handled on a case-by-case basis.

Warner said that he met with Representative Philbin concerning the Agency's legislative package and that he, the DDCI, and the Executive Director feel a letter from the Director would be appropriate. The Director agreed.

ADD/P called the Director's attention to a quite successful action in Laos.

The Director passed on highly complimentary remarks from the Secretary of Defense concerning the Agency's intelligence support on the war in Vietnam.
